25X1

1. The Lower Silesian Metal Industry Works (Dolnoslaskie Zaklady Przemyslu Metalowego) in Nowa Sol (Neusalz) is continually being expanded. In one part of the factory, artillery shells are under production. After explosion, the shells break into 36 pieces, each of which, in turn, breaks into a further 36 fragments.
2. Land mines are being produced in the underground part of a soap factory in Koscian (N52-06, E16-38).
3. In addition to furnace castings etc., the foundry in Pila (Schneidemuehl) casts parts for tanks and artillery guns.
4. The railway workshops in Tarnow were converted to the exclusive production of artillery guns. Firing tests from these guns take place in the woods in the vicinity of Tarnow.
